Basic Information

- Place of Origin: China
- Brand Name: Aipu
- Certification: CE CCC SABS TUV RoHS
- Price: Negotiable
- Packaging Details: Standard Export Package
- Delivery Time: 6-8 workdays

Product Specification

- Warranty: 1Years
- Flow Rate: 111-504m³/min
- Outlet Size: DN400mm
- Dimensions: 2300 X 1700 X 2140mm
- Boost: 30-120kPa
- Weight: 2140-2320kg
- Highlight: 504m³/min air suspension blower,
504m³/min suspension centrifugal blower,
air cushion air suspension blower

Product Description:

These blowers are universal fit, which means that they can be installed in virtually any vehicle with an air suspension system. The silver color of the blower makes it a sleek and stylish addition to any vehicle, while also ensuring that it is easy to spot and identify. The Air Suspension Blowers have a flow range of 111-504 m³/min, which means that they are able to deliver a consistent and powerful flow of air to the suspension system. This helps to ensure that the suspension is able to perform at its best, providing a smooth and comfortable ride for passengers. It can transport a large amount of air in a short period of time. These blowers are essential for anyone who is looking to maintain their air suspension system. Without a reliable and powerful air blower, the suspension system may not be able to function properly, which can result in a bumpy and uncomfortable ride. Whether you are looking to install a new air suspension system or simply need to replace an old or worn out blower, the Air Suspension Blowers are an excellent choice. With their high flow rate, universal fit, and sleek silver color, they are sure to meet the needs of any air cushion machine blower system.

Features:

Product Name: Air Suspension Blowers
 Type: High Pressure Air Blower
 Maximum Pressure: 120kpa
 Voltage: 380/400V
 Inlet Size: DN400mm
 Perfect for: Air Cushion Machine Blower, Bouncy Castle Air Blower

Technical Parameters:

Type	Universal Fit
Outlet Size	DN400mm
Temperature	Up To 60°C
Inlet Size	Open import
Warranty	1 Years
Dimensions	2300 X 1700 X 2140mm
Flow Range	111-504m ³ /min
Voltage	380/400V

This Air Suspension Blowers product is a versatile blower that is ideal for use in a variety of applications, including as an Air Cushion Machine Blower, Air Conditioner Blower, or Air Ride Suspension Compressor. It features an outlet size of DN400mm, open import, and a temperature range of up to 60°C. Additionally, it comes with a 1-year warranty and has dimensions of 2300 x 1700x 2140 mm. Other technical parameters include a filter density of F8, a flow range of 111-504m³/min, and a voltage of 380/400V.

Applications:

These air suspension blowers are perfect for a variety of occasions and scenarios. For instance, they can be used in the automotive and transportation industry to provide a reliable and efficient air suspension system for cars, trucks, and other vehicles. Additionally, they can also be used in the industrial and manufacturing sectors to power pneumatic tools and machinery. One of the most significant advantages of these air suspension blowers is their high-pressure capabilities. They are designed to deliver a consistent and powerful stream of air to ensure that your air suspension system is always performing at its best. Furthermore, these air suspension blowers come with an easy-to-use design that makes them easy to install and operate. When it comes to certifications, Aipu air suspension blowers have all the necessary certifications, including CE, CCC, SABS, TUV, and RoHS. This ensures that you are getting a high-quality product that meets all the relevant safety and quality standards. The price of these air suspension blowers is negotiable, and they come with standard export packaging details. The delivery time is 6-8 workdays, so you can expect to receive your order within a reasonable timeframe. These air suspension blowers are of a universal fit type and operate on a voltage of 380/400V. They weigh 2140-2320kg and have dimensions of 2300 x 1700 x 2140 mm, making them compact and easy to carry. The color of these air suspension blowers is silver, which gives them an attractive and modern look.

Customization:

Support and Services:

The Air Suspension Blowers product comes with technical support and services to ensure smooth operation and maintenance. Our team of experts can assist with troubleshooting any issues that may arise during installation or operation. We also offer regular maintenance services to keep the product in top condition and extend its lifespan. In addition, we provide product training to ensure proper usage and handling.

Packing and Shipping:

Product Packaging:

One Air Suspension Blower

Installation Instructions

Mounting Hardware

Shipping:

Ships within 1-2 business days

Free standard shipping within the US

International shipping available at an additional cost
