Basic Information

- Place of Origin: China
- Brand Name: Aipu
- Certification: CE CCC SABS TUV RoHS
- Price: Negotiable
- Packaging Details: Standard Export Package
- Delivery Time: 6-8 workdays

Product Specification

- Warranty: 1 Years
- Boost: 30-120kPa
- Color: Silver
- Flow Range: 77-314m³/min
- Temperature: Up To 60°C
- Voltage: 380/400V
- Outlet Size: DN300mm
- Highlight: 400v air suspension blower,
400v suspension centrifugal blower,
silver air suspension blower

Product Description

Product Description:

Our High Pressure Air Blower features a voltage of 380/400V, making it suitable for use with most vehicles. It has a flow range of 77-314m³/min, making it powerful enough to inflate even the largest air suspension systems. With a maximum pressure of 120kpa, this product is capable of providing the necessary pressure to ensure a smooth and comfortable ride.

The dimensions of our Air Suspension Blower are 1800X 1500 X2080mm, making it a compact and easy-to-store product. It is also equipped with an outlet size of DN300mm, making it easy to connect to your air suspension system.

Our Air Suspension Blowers are perfect for anyone who needs to adjust their air suspension system frequently. Whether you are a professional mechanic or a DIY enthusiast, our product is the perfect solution for all your air suspension needs. It is also ideal for those who are looking for a product that can provide reliable and efficient performance for a long time.

Our product is also perfect for those who are looking for an Air Suspension Shock Absorber. With its high pressure capabilities, it can help provide a comfortable ride, even on rough terrain. It is also ideal for those who are looking to improve the handling and stability of their vehicle.

At our company, we are committed to providing high-quality products that are built to last. Our Air Suspension Blowers are no exception. We are confident that our product will provide you with the performance and durability that you need to get the job done. So why wait? Get your Air Suspension Blower today and experience the difference for yourself!

Features:

Product Name: Air Suspension Blowers

Outlet Size: DN300mm

Flow Range: 77-314m³/min

Color: Silver

Temperature: Up To 60°C

This Air Suspension Blower is perfect for use as a *Jumping Castle Air Blower*, *Air Cushion Machine Blower*, or *Air Foil Bearing Blower*. It has an outlet size of DN300mm and a flow range of 77-314m³/min. The blower is silver in color. It can handle temperatures up to 60°C, making it a versatile choice for a variety of applications.

Technical Parameters:

Technical Parameters	Specifications
Product Name	Air Foil Bearing Blower
Flow Range	77-314m ³ /min
Weight	1450-1720kg
Boost	30-120kPa
Type	Universal Fit
Voltage	380/400V
Warranty	1 Years
Color	Silver
Dimensions	1800X 1500X2080mm
Inlet Size	DN300mm
Applications	Air Ride Suspension Compressor, Air Conditioner Blower

Applications:

The Aipu Air Suspension Blowers product is suitable for a wide range of occasions and scenarios. This product can be used in cars, trucks, and other vehicles to provide a comfortable and smooth ride. It is also an ideal choice for those who want to improve the performance of their air cushion machine blower. This product is capable of providing a maximum pressure of 120kpa, making it a powerful and reliable option for any application.

The Aipu Air Suspension Blowers product is designed to operate on a 380/400V voltage and has an outlet size of DN300mm. The color of this product is silver, giving it a sleek and stylish appearance that will complement any vehicle or air cushion machine blower.

When you purchase the Aipu Air Suspension Blowers product, you can expect it to be delivered within 6-8 workdays. The packaging details are standard export package, ensuring that your product arrives in excellent condition. Whether you are a professional mechanic or a DIY enthusiast, the Aipu Air Suspension Blowers product is an excellent choice for anyone who wants a high-quality, reliable, and efficient air ride suspension compressor.

Customization:

The dimensions for this Air Foil Bearing Blower are 1800 x 1500 x 2080 mm and it has a flow rate of 77-314m³/min. Our customization services ensure that this blower is perfect for your needs, whether you require a Jumping Castle Air Blower or an Air Conditioner Blower. Contact us today to learn more about how we can customize this product for you.

Support and Services:

The Air Suspension Blowers product provides technical support and services to ensure its optimal performance and longevity. Our team of experts is available to assist with any questions or concerns regarding installation, operation, and maintenance of the product. We offer regular maintenance and repair services to ensure that the product remains in good condition and operates efficiently. Additionally, we provide training and support to help customers operate the product effectively and safely. Our goal is to provide reliable and effective technical support and services to our customers to ensure their satisfaction and productivity.

Packing and Shipping:

Product Packaging:

The air suspension blower will be securely packaged in a cardboard box.

The box will be sealed with strong packing tape to prevent any damage during transportation.

Inside the box, the air suspension blower will be wrapped in protective foam to ensure it is not damaged during transit.

The packaging will also include an instruction manual and any necessary mounting hardware.

Shipping:

The air suspension blower will be shipped via a reliable courier service.

Shipping fees will be calculated based on the destination and weight of the package.

Customers will be provided with a tracking number so they can monitor the progress of their shipment.

Estimated delivery times will vary depending on the destination, but we will do our best to ensure prompt delivery.
