

Siemens 200mm Inlet Multi Stage Centrifugal Vacuum Pump For Manufacturing

Our Product Introduction

for more products please visit us on aipukqdl.com

Basic Information

- Place of Origin: China
- Brand Name: Aipu
- Certification: CE CCC SABS TUV RoHS
- Price: Negotiable
- Packaging Details: Standard Export Package
- Delivery Time: 6-8 workdays

Product Specification

- Vacuum Degree: -20~-50kpa
- Frequency: 50Hz/60Hz
- Inlet Diameter: DN200mm
- Stage: Multi-stage
- Flow Rate: 20-1500m³/min
- Type: Centrifugal
- Highlight: **Multi Stage Centrifugal Vacuum Pump,
Inlet Centrifugal Vacuum Pump,
Siemens 200mm Centrifugal Vacuum Pump**

Product Description

Product Description:

Multi stage centrifugal vacuum pumps are designed specifically for vacuum pump applications, ensuring that they can easily handle the requirements of vacuum related processes. This product is classified as specification C, indicating that it is a high-performance, high-capacity machine that is highly suitable for large-scale operations. Whether you need to move air, gas, or steam in industrial processes, this multi-stage centrifugal vacuum pump can accomplish this task.

One of the prominent features of this multi-stage centrifugal vacuum pump is its reasonable structure. This product is equipped with Siemens motors and is known for its excellent quality and durability. This ensures smooth and efficient operation of the pump, reducing downtime risks and maintenance costs. Siemens motors are a reliable choice that can enable this multi-stage centrifugal vacuum pump to operate for a long time without any problems.

Overall, multi-stage centrifugal vacuum pumps are reliable and efficient machines that can handle various industrial applications. Its high-pressure capability and multi-stage design make it an excellent choice for people who need to move large amounts of gas or steam. With Siemens motors, you can trust that this multi-stage centrifugal vacuum pump will provide reliable performance in the coming years.

Features:

Product Name: Multi stage Centrifugal Vacuum Pump

Stage: Multi-stage

Type: Centrifugal

Motor Brand: Siemens

Flow Range: 20-1500m³/min

Technical Parameters:

Product Name	Multi-stage Centrifugal Vacuum Pump
Stage	Multi-stage
Flow Range	20-1500m ³ /min
Inlet Diameter	DN200-500mm
Application	Vacuum Pump
vacuum degree	-20~-50kpa
Outlet Diameter	DN200-400mm

Applications:

This multi-stage centrifugal vacuum pump is highly suitable for a wide range of applications, including chemical processing, food and beverage production, pharmaceutical manufacturing, and more. Its powerful Siemens motor can provide a flow rate of 500m³/h, which is very suitable for large-scale applications. The vacuum degree range of this pump is -20~-50kPa, which can even meet the most demanding vacuum and pressure requirements.

Aipu multi-stage centrifugal vacuum pump is a multifunctional product that can be used in various scenarios. It is very suitable for vacuum packaging, vacuum drying, vacuum impregnation, and many other applications that require high vacuum and pressure. This pump provides excellent power and efficiency, making it an ideal choice for demanding applications.

The price of Aipu multi-stage centrifugal vacuum pump is negotiable, and the export packaging standard is excellent for enterprises looking to improve productivity and efficiency. It is an excellent investment. Its fast delivery time of 6-8 working days ensures that you can quickly put it into operation.

Whether you are processing chemicals, manufacturing pharmaceuticals, or packaging food, the Aipu multi-stage centrifugal vacuum pump is the perfect tool to accomplish this task. Contact us immediately to learn more about this innovative product and how it can benefit your business.

Customization:

Our product customization service allows you to customize this multi-stage centrifugal vacuum pump to meet your exact specifications. Whether you need specific inlet diameters, different materials for the pump body, or any other modifications, our team can assist you. In addition, through negotiable pricing and standard export packaging, you will receive high-quality products that are durable and long-lasting. The delivery time is only 6-8 working days, so you can start using the new high-pressure multi-stage vacuum pump as soon as possible.

Support and Services:

Multi stage centrifugal vacuum pump is a reliable and efficient solution suitable for a wide range of industrial applications. Our product technical support and services include:

Installation guidance and technical assistance

Regular maintenance and repair services

24/7 emergency support for urgent issues

Training and education on proper usage and maintenance of the product

Customization and design services for specific industrial needs

Upgrades and retrofits for older models to improve performance

Consultation and site analysis for optimal pump placement and operation

Our expert team is committed to providing excellent support and service to ensure the lifespan and efficiency of our multi-stage centrifugal vacuum pumps.

Packing and Shipping:

Product Packaging:

The multi-stage centrifugal vacuum pump will be carefully packaged in a sturdy wooden box.

The pump will be surrounded by foam padding to ensure that it remains secure during transportation.

Each box will contain the necessary accessories, such as hoses and connectors, as well as an instruction manual.

The box will be labelled with the product name, model number, and any other relevant information.

Shipping:

The pump will be shipped via a reliable courier service.

The shipping cost will be calculated based on the destination and weight of the package.

Customers will be provided with a tracking number so they can monitor the progress of their shipment.

Delivery times will vary depending on the destination, but customers can expect their pump to arrive within a reasonable timeframe.

FAQ:

What is the brand name of this product?

Aipu

Where is this product manufactured?

China

What certifications does this product have?

CE,CCC,SABS,TUV,RoHS

Is the price of this product negotiable?

Yes, the price is negotiable.

What are the packaging details for this product?

Standard Export Package

What is the delivery time for this product?

6-8 workdays
