Stainless Steel Steam Compressor Air Cooled 380V Compact And Sturdy Design

Our Product Introduction

for more products please visit us on aipukqdl.com

Basic Information

- Place of Origin: China
- Brand Name: Aipu
- Certification: CE CCC SABS TUV RoHS
- Price: Negotiable
- Packaging Details: Standard Export Package
- Delivery Time: 6-8 workdays

Product Specification

- Material: Stainless Steel
- Power Source: Electricity
- Frequency: 50Hz
- Brand Name: Aipu
- Highlight: Stainless Steel Steam Compressor, Steam Compressor Air Cooled, 380V mechanical steam compression

Product Description

Product Description:

Designed to operate at a voltage of 380V, this compressor is both powerful and efficient, and is capable of delivering consistent performance even under heavy load. Whether you are looking to power pneumatic tools, inflate tires, or operate machinery, the Vapour Compressor is a versatile and reliable choice that is sure to get the job done.

One of the key features of the Vapour Compressor is its air-cooled design, which helps to prevent overheating and ensures that the compressor operates at peak efficiency. This not only helps to prolong the life of the compressor, but also helps to improve performance and reduce operating costs over time.

In addition to its air-cooled design, the Vapour Compressor also features a range of other advanced features that make it an excellent choice for a variety of applications. For instance, the compressor comes equipped with a condensation pump that makes it easy to remove excess moisture from the air, ensuring that your compressed air is clean and dry at all times.

Furthermore, the Vapour Compressor also features a liquid evaporator compressor, which helps to reduce the temperature of the compressed air as it is being produced. This not only helps to prevent overheating, but also helps to improve the quality of the compressed air and reduce the risk of damage to your equipment.

Finally, the Vapour Compressor also features a boiler condensate pump, which helps to remove excess water from the boiler and prevent it from accumulating and causing damage to the compressor. This ensures that the compressor operates at maximum efficiency and helps to prolong its lifespan.

Overall, the Vapour Compressor is a high-quality and reliable compressor that is perfect for a range of industrial and commercial applications. With its powerful performance, advanced features, and durable construction, this compressor is sure to provide years of dependable service and help you get the job done right.

Features:

Product Name: Vapour Compressor

Motor Type: Induction

Voltage: 380V

Technical Parameters:

Material	Stainless Steel
Frequency	50Hz
Cooling Method	Air-cooled
Models	Vapour Compressor
Voltage	380V

Applications:

With its compact and sturdy design, the steam compressor is very portable and easy to install. This product has passed CE, CCC, SABS, TUV, and RoHS certifications, ensuring that it meets the highest quality, safety, and performance standards.

The Vapour Compressor is suitable for a wide range of product application occasions and scenarios. It can be used in the chemical industry to compress and transport various gases and liquids. It can also be used in the food industry to evaporate liquids and compress steam. Furthermore, it is ideal for the pharmaceutical industry, where it can be used to compress and transport various gases, liquids, and vapors.

The Vapour Compressor is highly reliable and durable, ensuring long-term performance and low maintenance costs. The product comes with a standard export package, ensuring that it is delivered in the best possible condition. The delivery time for the product is 6-8 workdays, making it a convenient option for urgent industrial and commercial applications.

In conclusion, the Vapour Compressor is an ideal product for various industrial and commercial applications that require efficient steam compression, vapor explosion suppression, and liquid evaporation. With its high-quality design, motor-driven operation, and a wide range of product application occasions and scenarios, this product is a must-have for any industry that requires reliable and efficient compression and evaporation.

Customization:

Product Customization Services for Aipu Vapour Compressor:

Our Vapour Compressor is a high-quality product that can be tailored to your specific needs. Made in China, it comes with the following attributes:

Brand Name: Aipu

Place of Origin: China

Certification: CE, CCC, SABS, TUV, RoHS

Price: Negotiable

Packaging Details: Standard Export Package

Delivery Time: 6-8 workdays

Our customization services include:

Customized Vapour Compressor

Support and Services:

The Vapour Compressor product technical support and services include:

24/7 customer service hotline

Expert technical assistance for installation and maintenance

On-site repair and replacement services

Remote monitoring and troubleshooting

Regular maintenance and inspection services

Training and education programs for operators and maintenance personnel

Packing and Shipping:

Product Packaging:

1 Vapour Compressor

1 User Manual

1 Power Cord

Shipping:

Shipping Method: Standard Shipping

Estimated Delivery Time: 5-7 business days

Shipping Cost: Free

Tracking Information: Provided via email

FAQ:

Q: What is the brand name of the compressor?

A: The brand name of the compressor is Aipu.

Q: Where is the compressor manufactured?

A: The compressor is manufactured in China.

Q: What certifications does the compressor have?

A: The compressor is certified by CE, CCC, SABS, TUV, and RoHS.

Q: What is the price of the compressor?

A: The price of the compressor is negotiable.

Q: What are the packaging details and delivery time?

A: The compressor comes in a standard export package and the delivery time is 6-8 workdays.
