

High Performance Roots Blower for Industrial and Durability Guaranteed

Our Product Introduction

for more products please visit us on aipukqdl.com

Basic Information

- Place of Origin: China
- Brand Name: Aipu
- Certification: CE CCC SABS TUV RoHS
- Model Number: SSR
- Price: Negotiable
- Packaging Details: Standard Export Package
- Delivery Time: 6-8 workdays

Product Specification

- Application: Industrial
- Material: HT200
- Flow: 0.45-452.4m³/min
- Boost: 9.8-78.4kpa
- Highlight: durability roots blower,
durability roots air blower,
guaranteed roots blower

Product Description

High Performance Roots Blower for Industrial and Durability Guaranteed

Product Description:

The core features of the SSR series Roots blower include high efficiency and energy saving, low noise, low vibration, compact structure, and wide applicability. These characteristics have made the SSR series Roots blower widely praised in the market and suitable for various industrial fields.

Features:

Efficient and energy-saving: The SSR series Roots blower adopts an efficient motor and optimized impeller design, which saves 10%~30% energy and increases volumetric efficiency by 5%~12% compared to the ordinary series.

Low noise and low vibration: By optimizing the impeller structure and using sound insulation materials, the noise of the SSR series Roots blower is 3-5 dB (A) lower than that of the ordinary series, and a new design of the casing structure and shaft seal structure is adopted to reduce vibration and noise.

Compact structure: Under the same caliber, the SSR series Roots blower has a smaller volume, achieving coverage of over 120% of the maximum flow rate. At the same time, it adopts a specially designed suction muffler, reducing the overall size.

Wide applicability: The SSR series Roots blower is suitable for sewage treatment, mining, metallurgy, chemical industry, light industry, building materials, electricity, flour, aquaculture and other fields, meeting the needs of different industries.

Easy maintenance: The SSR series Roots blower has a simple structure and easy maintenance, reducing maintenance costs and downtime.

In summary, the SSR series Roots blower has become an indispensable equipment in the industrial field due to its high efficiency, energy saving, low noise, low vibration, compact structure, and wide applicability.

Applications:

One amazing feature of this Roots blower is its high efficiency. It is designed to operate efficiently with high delivery speed and low power consumption, making it energy-efficient. This means that compared to other Roots blowers on the market, it can operate efficiently.

This Roots blower is made of high-quality materials, ensuring durability and long-lasting use, suitable for various industrial applications. Its multi specification outlet diameter provides users with a wide range of choices, depending on their specific needs.

This Roots blower comes with standard export packaging to ensure safety during transportation.

This Roots blower is suitable for a wide range of applications. It can be used in industries such as chemistry, pharmaceuticals, electronics, and food. It is also suitable for applications such as vacuum drying, vacuum impregnation, vacuum degassing, and vacuum melting.

The delivery time is 6-8 working days, and customers can ensure timely receipt of orders. The price of this Roots blower is negotiable, so companies hoping to purchase it can afford it.

In short, Aipu's Roots blower is an excellent choice for enterprises seeking affordable, high-quality, and efficient vacuum pumps. Its numerous characteristics make it suitable for a wide range of industrial applications.

Customization:

Support and Services:

Our Roots blowers are designed to provide reliable and efficient operation for various industrial applications. Our product technical support and services include:

Installation and commissioning support

Regular maintenance and repair services

Technical consultation and troubleshooting assistance

Training programs for operators and maintenance personnel

Remote monitoring and diagnostic services

Upgrades and retrofits to improve performance and efficiency

We are committed to providing excellent customer service, ensuring that our products meet and exceed your expectations. If you have any questions or concerns about our Roots blower, please feel free to contact us for further assistance.

Packing and Shipping:

Product Packaging:

The Roots blower will be packaged in wooden boxes.

The fan will be wrapped in plastic to protect it from dust and scratches during shipping.

The crate will be sealed with nails and marked with the product name and shipping information.

Shipping:

The product will be shipped via sea or air, depending on customer preference and shipping cost.

Shipping cost will be calculated based on the weight and destination of the product.

The customer will be provided with a tracking number to monitor the shipment.

The estimated delivery time will depend on the shipping method and destination, and will be communicated to the customer.

FAQ:

What is the brand of this Roots blower?

Aipu.

Where is this Roots blower manufactured?

China.

What certification does this Roots blower have?

CE, CCC, SABS, TUV, RoHS.

What is the price of this Roots blower?

The price is negotiable.

What are the packaging details of this Roots blower?

Roots blower adopts standard export packaging.

What is the delivery time for this Roots blower?

The delivery time is 6-8 workdays.
