

380/220V Electric Black Magnetic Levitation Blower Remote Control And Auto Magnetic Bearings 2kg

Our Product Introduction

for more products please visit us on aipukqdl.com

Basic Information

- Place of Origin: China
- Brand Name: Aipu
- Certification: CE CCC SABS TUV RoHS
- Price: Negotiable
- Packaging Details: Standard Export Package
- Delivery Time: 6-8 workdays

Product Specification

- Weight: 800kg
- Voltage: 380V/220V
- Control Type: Remote Control
- Power Source: Electric
- Timer Function: Yes
- Color: Black
- Typology: Centrifugal Separator
- Bear: Autonomous Domestic Magnetic Bearings
- Highlight: **Magnetic Levitation Blower remote , 220v magnetic levitation roots blower, 220v Magnetic Levitation Blower**

Product Description

Product Description:

With a voltage range of 380V/220V and a frequency range of 50Hz/60Hz, this Floating Turbine Blower is suitable for use in most regions around the world. The power source is electric, which makes it easy to operate and maintain. The black color of the blower gives it a sleek and professional look, making it a great addition to any facility.

The Magnetic Levitation Ventilator is capable of delivering a flow range of 20-400m³/min, which means it can handle even the most demanding ventilation applications with ease. Whether you need to move large volumes of air quickly or maintain a steady flow rate over an extended period of time, this blower is up to the task.

In addition to its impressive performance, the Magnetic Levitation Ventilator is also incredibly easy to install and operate. It comes with all the necessary components and instructions, making it a convenient and hassle-free solution for your ventilation needs. The blower is also designed to be energy-efficient, which means it can help you save on your electricity bills over time.

If you're looking for a powerful, efficient and reliable ventilation solution, the Magnetic Levitation Ventilator is the perfect choice. With its advanced magnetic levitation technology, smooth and quiet operation, and impressive flow range, this Anti-Gravity Blower is sure to meet all your needs. So why wait? Order your Magnetic Levitation Ventilator today and experience the benefits for yourself!

Features:

Product Name: Magnetic Levitation Blower

Voltage: 380V/220V

Frequency: 50Hz/60Hz

Power Source: Electric

Bear: Autonomous Domestic Magnetic Bearings

Weight: 800kg

This Anti-Gravity Blower, also known as a Magnetic Levitation Ventilator, is a unique product that utilizes autonomous domestic magnetic bearings to reduce friction and increase efficiency.

Technical Parameters:

Power Source:	Electric
Frequency:	50Hz/60Hz
Control Type:	Remote Control
Power Consumption:	55KW
Bear:	Autonomous Domestic Magnetic Bearings
Voltage:	380V/220V
Warranty:	1 Year
Flow Range:	20-400m ³ /min
Size:	1700x1500x1480mm

Applications:

Thanks to its advanced technology, this Magnetic Levitation Ventilator creates a powerful and silent air flow, without any vibrations or noise. The anti-gravity blower design allows for a unique and efficient air circulation system, ideal for large and open spaces.

Whether you need to cool down a room, improve air quality, or simply create a comfortable and refreshing environment, the Aipu Magnetic Levitation Blower is the way to go. Its autonomous domestic magnetic bearings ensure a safe and stable operation, while the remote control and timer function make it easy to use and customize according to your needs.

But that's not all - the Aipu Magnetic Levitation Blower also boasts an impressive list of certifications, such as CE, CCC, SABS, TUV, and RoHS, ensuring its quality and reliability. And the best part? Its price is negotiable, making it accessible for everyone.

So whether you're looking for a powerful and efficient air circulator for your home, office, or any other space, the Aipu Magnetic Levitation Blower is the perfect choice. With its sleek black color and standard export packaging, it will blend seamlessly into any environment. And with a delivery time of only 6-8 workdays, you won't have to wait long to enjoy its benefits.

Customization:

Support and Services:

Our technical support team is available to provide assistance with installation, operation, and maintenance of the product. They can also offer troubleshooting guidance and provide solutions to any issues you may encounter.

In addition to technical support, we also offer a range of services to help you get the most out of your Magnetic Levitation Blower. These include:

Product training to ensure proper usage and handling

Customized maintenance plans to suit your specific needs

Repair and replacement services for any faulty or damaged components

Upgrades and retrofits to improve performance and extend product life

Our goal is to provide you with the highest level of support and service to ensure your Magnetic Levitation Blower operates efficiently and reliably. Contact us today for more information.

Packing and Shipping:

The Magnetic Levitation Blower will be packed in a sturdy cardboard box to ensure safe transportation. The product will be wrapped in a protective layer of bubble wrap to prevent any damage during transit. All necessary instructions and manuals will also be included in the package.

Shipping:

Shipping will be handled by a reliable courier service. The estimated delivery time will be communicated to the customer at the time of purchase. Customers will also be provided with a tracking number to track their shipment.

FAQ:

Q: What is the brand name of the magnetic levitation blower?

A: The brand name of the magnetic levitation blower is Aipu.

Q: Where is the magnetic levitation blower manufactured?

A: The magnetic levitation blower is manufactured in China.

Q: What certifications does the magnetic levitation blower have?

A: The magnetic levitation blower has CE, CCC, SABS, TUV, and RoHS certifications.

Q: What is the price of the magnetic levitation blower?

A: The price of the magnetic levitation blower is negotiable.

Q: What are the packaging details and delivery time for the magnetic levitation blower?

A: The magnetic levitation blower comes with standard export packaging and has a delivery time of 6-8 workdays.
