

## Heavy Duty Cast Iron Electric Vacuum Roots Type Pump For Roots Fans

Our Product Introduction

for more products please visit us on [aipukqdl.com](http://aipukqdl.com)

### Basic Information

- Place of Origin: China
- Brand Name: Aipu
- Certification: CE CCC SABS TUV RoHS
- Model Number: L ZL)
- Price: Negotiable
- Packaging Details: Standard Export Package
- Delivery Time: 6-8 workdays

### Product Specification

- Type: Vacuum Pump
- Power Source: Electric
- Material: Cast Iron
- Application: Industrial
- Warranty: 1 Year
- Vacuum Degree: -9.8~-39.2kPa
- Highlight: electric roots type pump,  
electric roots type vacuum pump,  
heavy duty roots type pump

## Product Description

### Product Description:

The L (ZL) Roots vacuum pump is electric, providing a reliable and stable power supply. These pumps can handle vacuum levels ranging from -9.8 kPa to -39.2 kPa, making them suitable for various industrial applications. These pumps have a voltage of 380V and are easy to operate and maintain.

The L (ZL) Roots vacuum pump is designed to provide the highest level of efficiency and performance. This Roots vacuum pump is very suitable for applications that require high vacuum levels. This Roots vacuum pump has a flow rate of up to 753m<sup>3</sup>/min, capable of handling the most demanding applications.

Overall, the Roots vacuum pumps offered in this product line are an excellent choice for industrial applications. With its high efficiency, reliability, and performance, this Roots vacuum pump is sure to meet the needs of your industrial applications.

### Features:

**Product Name:** Roots Vacuum Pump

**Max Flow Rate:** 349m<sup>3</sup>/min

**Material:** Cast Iron

**Application:** Industrial

**Type:** Vacuum Pump

**Warranty:** 1 Year

**Features:**

Vacuum Roots Pumps

Parallel Twin Lobe Vacuum Pumps

Rotary Lobe Vacuum Pumps

### Technical Parameters:

Warranty	1 Year
Flow Rate	6.08-349m <sup>3</sup> /min
Models	L(ZL)
Max Flow Rate	349m <sup>3</sup> /h
Application	Industrial
Maximum vacuum degree	-39.2kpa
Material	Cast Iron
Pressure	-9.8kPa~-39.2kPa

### Applications:

The L (ZL) model Roots vacuum pumps are designed to provide optimal performance and can be used in various scenarios and occasions, such as:

**Chemical Industry:** Aipu vacuum pump is an ideal choice for the chemical industry. These vacuum pumps can be used for distillation, drying, and filtration purposes. Parallel double blade vacuum pumps are highly suitable for handling corrosive gases and vapors, while rotary blade vacuum pumps are an ideal choice for handling solvents and other chemicals.

**Food Industry:** Aipu vacuum pumps are also suitable for the food industry. These pumps can be used for food packaging, drying, and sterilization. Parallel double leaf vacuum pumps are highly suitable for processing food, while rotary leaf vacuum pumps are an ideal choice for handling liquids and semi-solid materials.

**Pharmaceutical Industry:** Aipu vacuum pumps are also commonly used in the pharmaceutical industry. These pumps can be used for drying, distillation, and filtration purposes. Parallel double blade vacuum pumps are highly suitable for handling corrosive gases and vapors, while rotary blade vacuum pumps are an ideal choice for handling solvents and other chemicals.

**Environmental Protection:** The Aipu vacuum pump is also an ideal choice in the field of environmental protection.

**Other Industries:** Aipu vacuum pumps are also suitable for other industries such as metallurgy, electronics, and textiles. These pumps can be used for drying, distillation, and filtration purposes. Parallel double blade vacuum pumps are highly suitable for handling corrosive gases and vapors, while rotary blade vacuum pumps are well suited for handling liquids and semi-solid materials.

Overall, the application range of the Aiplotz vacuum pump is very wide, and it can be used in various scenarios and occasions. With their high efficiency and reliability, these Roots vacuum pumps are a huge investment for any industrial operation.

### Customization:

Our Aipu vacuum pump technology ensures a maximum vacuum pressure of -9.8 Pa and a maximum flow rate of 349 m<sup>3</sup>/min, making it highly suitable for industrial applications. With a 1-year warranty, you can trust the durability of our vacuum pump. Contact us today to learn more about our product customization services and find the perfect vacuum pump for your needs.

## Support and Services:

Our designed Roots vacuum pump aims to provide reliable and efficient performance. We provide technical support and services to ensure that our customers can make the most of our products. Our expert team can provide troubleshooting assistance, installation guidance, and maintenance recommendations to help our customers maintain the smooth operation of vacuum pumps. We also provide repair and replacement services for any parts that may require attention. Contact us to learn more about technical support and service information for Roots vacuum pumps.

## Packing and Shipping:

### Product Packaging and Shipping for Vacuum Pumps for Roots Fans:

Roots vacuum pumps are carefully packaged to ensure that they will not be damaged during transportation. Each vacuum pump is packaged in a sturdy cardboard box with sufficient padding to prevent any vibration or impact from damaging the product. The box is labeled with the product name and model for easy identification.

We ship our products globally and use reliable shipping companies to ensure timely and safe delivery of your order. Our shipping fees vary depending on your location and order size. We offer multiple modes of transportation, including standard, expedited, and express. If you have any questions about the packaging or transportation of Roots vacuum pumps, please feel free to contact us at any time. We are happy to solve any problems for you.

## FAQ:

A: The brand name of Roots vacuum pump is Aipu.

Q: Where is the Roots vacuum pump manufactured?

A: Roots vacuum pumps are manufactured in China.

Q: Is there any certification for Roots vacuum pumps?

A: Yes, Roots vacuum pumps have passed CE, CCC, SABS, TUV, and RoHS certifications.

Q: What is the price of Roots vacuum pump?

A: The price of Roots vacuum pump can be negotiated. Please contact us for more details.

Q: How are Roots vacuum pumps packaged and delivered?

A: Roots vacuum pump adopts standard export packaging and can be delivered within 6-8 working days.
