

Industrial Grade 50Hz Cast Iron Roots Vacuum Pump For Air / Gas Evacuation

Our Product Introduction

for more products please visit us on aipukqdl.com

Basic Information

- Place of Origin: China
- Brand Name: Aipu
- Certification: CE CCC SABS TUV RoHS
- Model Number: SSR-65V
- Price: Negotiable
- Packaging Details: Standard Export Package
- Delivery Time: 6-8 workdays

Product Specification

- Material: Cast Iron
- Type: Vacuum Pump
- Application: Industrial
- Flow Range: 0.45-452.4m³/min
- Pressure: -9.8kPa~-44kPa
- Highlight: cast iron roots vacuum pump,
industrial roots type pump,
industrial roots vacuum pump

Product Description

Product Description:

Our Roots vacuum pump is made of high-quality cast iron material, which ensures its service life and wear resistance. Our pump flow range is 0.45-452.4m³/min, which is very suitable for various applications from small factories to large industrial factories. Our Roots vacuum pump technology ensures that our vacuum pumps operate with maximum efficiency and minimal noise. This means that our Roots vacuum pumps can not only save you energy costs, but also reduce the impact of your operations on the environment. Our Roots vacuum pump is designed to handle the harshest applications, making it highly suitable for heavy industrial use. Whether you are looking for a Roots vacuum pump for a new installation or upgrading an existing system, our Roots vacuum pump is the perfect solution. With its high performance, durability, and efficient operation, our Roots vacuum pump is your ideal choice.

Features:

Product Name: Roots Vacuum Pump

Voltage: 380V

Flow Range: 0.45-452.4m³/min

Max Flow Rate: 1000m³/h

Power Source: Electric

Warranty: 1 Year

Keywords: Vacuum Roots Pump, Aiproz Vacuum Pump.

Technical Parameters:

| | |
|---------------|-------------------------------|
| Voltage | 380V |
| Power Source | Electric |
| Flow Range | 0.45-452.4m ³ /min |
| Max Flow Rate | 452.4m ³ /h |
| Application | Industrial |
| Material | Cast Iron |
| Frequency | 50Hz |
| Models | SSR |

Applications:

Aipu vacuum pump is an essential product for a wide range of industrial applications. These Roots vacuum pumps are designed to work in conjunction with other devices to generate vacuum in various situations.

One of the most common applications of these Roots vacuum pumps is in the manufacturing industry. They are commonly used to generate vacuum to improve the quality and accuracy of different processes. For example, they can be used to remove excess air and moisture from materials to ensure they are properly cured or dried. They can also be used to generate vacuum to prevent contamination during the production process of sensitive products.

Another common use of the Aiplotz vacuum pump is in the medical industry. They are commonly used in medical institutions to create a vacuum for various procedures such as wound treatment and aspiration. They are also used in laboratory environments to create a vacuum for research and testing purposes.

In addition to these industrial and medical applications, these Roots vacuum pumps are also commonly used in the environmental field. They can be used to create a vacuum to remove waste and other substances from water or air. They are also used in the oil and gas industry to extract oil and gas from underground sources.

Overall, the Aplotz vacuum pump is a multifunctional and reliable product that can be used in various scenarios. They are manufactured in China and have obtained various certifications, including CE, CCC, SABS, TUV, and RoHS. Their prices are competitive and come with standard export packaging. The delivery time is usually 6-8 working days. The maximum flow rate of these Roots vacuum pumps is 452.4m³/min, with a flow range of 0.45-452.4m³/min. They have SSR models with a caliber range of 50-200mm. They can operate within a pressure range of -9.8 kPa to -44 kPa.

Whether you need Roots vacuum pumps for manufacturing, medical, environmental, or oil and gas applications, Aiplotz vacuum pumps are the perfect choice. They are versatile, reliable, and competitively priced, making them a great investment for any business or organization.

Customization:

Aipu provides customized product services for its Roots vacuum pumps, including SSR vacuum pumps. These Roots vacuum pumps are manufactured in China and have obtained various certifications such as CE, CCC, SABS, TUV, and RoHS. Customized prices can be negotiated, and Roots vacuum pumps come in standard export packaging. The delivery time is usually 6-8 working days. The voltage setting of Roots vacuum pump is 380V, and available models include SSR. The maximum flow rate of these pumps is 452.4m³/min, and the maximum vacuum degree is -4080mAQ. Aipu also provides a one-year warranty for its products.

Support and Services:

Our Roots vacuum pump products comes with a comprehensive technical support and service package to ensure the best performance of the product. Our team of experts is available to provide remote technical support and troubleshooting, as well as on-site support if needed. We also offer maintenance and repair services to keep the product running smoothly and efficiently. Our services include:

Installation and commissioning

Preventive maintenance

Repairs and refurbishment

Technical support and troubleshooting

Training and education

We are committed to providing the highest level of service to our customers to ensure the long-term success of their operations.

Packing and Shipping:

Product Packaging:

The Roots vacuum pump is carefully packaged in sturdy cardboard boxes.

The boxes are labeled with the product name, model number, and quantity.

Each component is wrapped in protective material to prevent damage during shipping.

Instructions and safety information are included in the package.

Shipping:

We offer worldwide shipping.

The shipping cost will be calculated based on the destination and the weight of the package.

We use reliable shipping carriers to ensure timely delivery.

You will receive a tracking number once your order has shipped.

FAQ:

Q: What are the brand names of these Roots vacuum pumps?

A: The brand name of these Roots vacuum pumps is Aipu.

Q: Where are these Roots vacuum pumps manufactured?

A: These Roots vacuum pumps are made in China.

Q: What certifications do these Roots vacuum pumps have?

A: These Roots vacuum pumps have CE, CCC, SABS, TUV, and RoHS certifications.

Q: What is the price of these Roots vacuum pumps?

A: The prices of these Roots vacuum pumps can be negotiated.

Q: What are the packaging details and delivery time of these Roots vacuum pumps?

A: These Roots vacuum pumps come in standard export packaging and have a delivery time of 6-8 working days.
