

## Heavy Duty Multistage Centrifugal Blower 50Hz/60Hz For Industrial Ventilation Systems

Our Product Introduction

for more products please visit us on [aipukqdl.com](http://aipukqdl.com)

### Basic Information

- Place of Origin: China
- Brand Name: Aipu
- Certification: CE CCC SABS TUV RoHS
- Price: Negotiable
- Packaging Details: Standard Export Package
- Delivery Time: 6-8 workdays

### Product Specification

- Specification: MC
- Type: Centrifugal
- Frequency: 50Hz/60Hz
- Flow Rate: 20-1500m<sup>3</sup>/min
- Outlet Diameter: DN150-500mm
- Boost: 19.6-137.2kPa
- Highlight: heavy duty multistage centrifugal blower ,  
heavy multi stage blower,  
heavy multistage centrifugal blower

## Product Description

### Product Description:

The Multi stage centrifugal blower has a flow rate of 20-1500m<sup>3</sup>/h and a pressure of up to 137.2KPa, which can increase the pressure from 19.6kPa to 137.2kPa, making it a powerful tool in a wide range of industries. Its multi-level design ensures the highest efficiency and reliability, ensuring that it can even handle the most demanding applications.

Whether you are in the pharmaceutical, food and beverage, or manufacturing industries, our multi-stage centrifugal blowers are the perfect solution to meet all your fan needs. Its compact design and easy installation make it a worry free choice for those seeking reliable and efficient multi-stage centrifugal fans.

Why do we have to wait? Order your multi-stage centrifugal blower vacuum pump now and experience the power and efficiency it brings to your business. Our expert team is always ready to assist you and answer any questions you may encounter. Contact us immediately for more information!

### Features:

**Product Name:** Multi stage Centrifugal Blower

**Inlet Diameter:** DN150-600mm

**Application:** water treatment, wastewater treatment, biogas recovery, vacuum dust removal

**Motor Power:** 15kW

**Material:** Cast Iron

This multi-stage centrifugal blower is very suitable for industrial applications

### Technical Parameters:

Flow Rate:	20-1500m <sup>3</sup> /min
Inlet Diameter:	DN150-600mm
Type:	Centrifugal
Stage:	Multi-stage
Application:	<b>water treatment, wastewater treatment, biogas recovery, vacuum dust removal</b>
Outlet Diameter:	DN150-500mm
Material:	Cast Iron
Specification:	MC

### Applications:

This product is suitable for pharmaceutical, food processing, and chemical industries that require high-pressure fans. It can also be used in the paper and pulp industry for the production of paper and cardboard. In addition, centrifugal blowers are an ideal choice for electronic components and semiconductor manufacturing.

The multi-stage centrifugal blower is made in China and has CE, CCC, SABS, TUV, and RoHS certifications. The product has excellent quality and the price is negotiable. The product adopts standard export packaging and the delivery time is 6-8 working days.

The inlet diameter of the Aipu multi-stage centrifugal blower is DN150-600mm, suitable for various occasions. This product is designed to provide efficient and reliable performance, and is easy to install and maintain. It also has a long service life, making it an affordable choice for users.

In summary, the Aipu multi-stage centrifugal blower is a reliable and efficient product that can be used in various industries. It is a high-pressure multi-stage centrifugal fan manufactured in China, with CE, CCC, SABS, TUV, and RoHS certifications. The product is competitively priced and comes with standard export packaging. For users who require high-performance centrifugal fans with a long service life, this is an ideal choice.

### Customization:

Our multi-stage centrifugal blower, also known as a centrifugal blower, is a high-quality product of the well-known Chinese brand Aipu. It has CE, CCC, SABS, TUV, and RoHS certifications to ensure its safety and reliability.

The motor is manufactured by Siemens, a trusted brand in the industry. The boosting range of this centrifugal fan is 19.6-137.2kPa, suitable for various applications. This product specification is MC, with a working frequency of 50Hz.

The inlet diameter of this product is DN15-600mm. We provide product customization services to meet your specific needs, with negotiable prices and standard export packaging details.

The delivery time for our product is 6-8 working days, so you can immediately start and operate the multi-stage centrifugal blower. Contact us immediately to discuss your customization options.

### Support and Services:

Our multi-stage centrifugal blower products provide the following technical support and services:

**Installation and start-up assistance**

**Regular maintenance and repair services**

**Training and technical support for operation and troubleshooting**

**Parts and accessories replacement services**

**Performance optimization and upgrade services**

Our experienced team of engineers and technicians is committed to providing high-quality technical support and services to ensure the optimal performance and lifespan of your multi-stage centrifugal blower.

## Packing and Shipping:

Product Packaging:

**The multi-stage centrifugal blower will be safely packaged in a durable wooden box.**

**The pump will be fitted with protective foam padding to prevent any damage during transportation.**

**All necessary accessories and documentation will be included in the package.**

Shipping:

**Multi stage centrifugal blowers will be shipped through reliable courier services.**

**The shipping cost will depend on the destination and weight of the package.**

**The estimated delivery time will be provided upon checkout.**

**A tracking number will be provided to the customer to track the package during transit.**

## FAQ:

**Q:** What is the brand name of this multistage centrifugal blower?

**A:** The brand name of this product is Aipu.

**Q:** Where was this product manufactured?

**A:** This multistage centrifugal blower was manufactured in China.

**Q:** Does this product have any certifications?

**A:** Yes, this product has CE, CCC, SABS, TUV, and RoHS certifications.

**Q:** Is the price of this product negotiable?

**A:** Yes, the price of this product is negotiable.

**Q:** How is this product packaged for delivery?

**A:** This product is packaged in a standard export package for delivery.

**Q:** What is the estimated delivery time for this product?

**A:** The estimated delivery time for this product is 6-8 workdays.
