## Industrial Air Suspension Blowers For Heavy Duty Applications High Pressure Air Blower

Our Product Introduction

for more products please visit us on [aipukqdl.com](http://aipukqdl.com)

### Basic Information

- Place of Origin: China
- Brand Name: Aipu
- Certification: CE CCC SABS TUV RoHS
- Price: Negotiable
- Packaging Details: Standard Export Package
- Delivery Time: 6-8 workdays

### Product Specification

- Weight: 300KG
- Dimensions: 1300X 800 X 1230 Mm
- Boost: 30-70kPa
- Type: Universal Fit
- Warranty: 1 Years
- Flow Rate: 10-24m<sup>3</sup>/min
- Highlight: industrial air bearing blower,  
industrial high pressure air blower,  
heavy duty air bearing blower

## Product Description

### Industrial Air Suspension Blowers for Heavy Duty Applications

#### Product Description:

Weighing only 300kg, our High Pressure Air Blower is compact and lightweight, making it easy to handle and transport. The 10-24m<sup>3</sup>/min flow range ensures a consistent and reliable supply of air to your air suspension system, keeping your vehicle running smoothly.

Our Air Suspension Blowers have dimensions of 1300 x 800x 1230mm, making them easy to mount and integrate into your system, without taking up too much space. The robust design ensures durability and longevity, providing you with a long-lasting and reliable air suspension solution.

With a temperature range of up to 60°C, our Air Suspension Blowers are suitable for use in a variety of environments, ensuring optimal performance in any condition. Our product is perfect for those who demand high-quality and reliable air suspension solutions, making it an excellent choice for both personal and professional use.

#### Features:

**Product Name:** Air Suspension Blowers

**Color:** Silver

**Inlet Size:** DN150mm

**Dimensions:** 1300 X 800 X 1230mm

**High Pressure Air Blower**

**Bouncy Castle Air Blower**

**Air suspension blower**

#### Technical Parameters:

Air Suspension Blowers	
Amperage	Variable frequency regulation
Warranty	1 Years
Boost	30-120kPa
Temperature	Up To 60°C
Flow Range	10-504m <sup>3</sup> /min
Outlet Size	DN150-400mm
Weight	300-2320kg
Voltage	According to demand

This Air Suspension Blower is a type of High Pressure Air Blower. It can be used for various purposes such as in Air Conditioner Blower or Bouncy Castle Air Blower.

#### Applications:

This High-Pressure Air Blower is suitable for many occasions and scenarios, including air conditioning systems, ventilation systems, and pneumatic conveying systems. It can be used in industrial manufacturing, chemical plants, mining, food processing, and other industries that require a high-pressure air blower. The product is designed to provide excellent performance and reliability, making it ideal for heavy-duty applications.

The High-Pressure Air Blower by Aipu has a boost range of 30-120kPa and a flow range of 10-504m<sup>3</sup>/min. It is a Universal Fit type, which means it can be installed in various systems without any compatibility issues. The product comes in silver color, which complements its sleek and modern design.

With an amperage of 15A, this High-Pressure Air Blower is energy-efficient and cost-effective. It is designed to consume less power while delivering high performance, making it an ideal choice for those who want to save on energy costs. The product is easy to install and maintain, which allows for hassle-free use.

In summary, the High-Pressure Air Blower by Aipu is a reliable and efficient product that can be used in various applications. Its certifications ensure its quality and safety, and its negotiable price and standard export packaging make it a cost-effective choice. This product is suitable for industrial manufacturing, chemical plants, mining, food processing, and other industries that require a high-pressure air blower. It is a must-have for those who need a top-quality Air Conditioner Blower.

#### Customization:

#### Support and Services:

The Air Suspension Blowers product is designed to provide efficient and reliable performance for your air suspension system. Our technical support team is available to assist you with any questions or concerns you may have about your product, including installation, operation, and maintenance. Our services include:

**24/7 customer support**

**Product troubleshooting and diagnostics**

**Repair and replacement services**

**Product warranty support**

**Technical documentation and manuals**

**Training and education resources**

Our goal is to ensure that your air suspension system operates at its best with the help of our Air Suspension Blowers product and technical support services.

## Packing and Shipping:

**Product Packaging:**

**The air suspension blower will be packaged in a sturdy cardboard box.**

**The box will be secured with packing tape to prevent any damage during shipping.**

**The product will be wrapped in bubble wrap to provide extra protection.**

**A user manual and warranty information will be included in the package.**

**Shipping:**

**The air suspension blower will be shipped via a reputable courier service.**

**Shipping fees will apply and will be calculated based on the shipping address and weight of the product.**

**The estimated delivery time will depend on the destination and courier service selected.**

**A tracking number will be provided to the customer once the product has been shipped.**

## FAQ:

**Q1: What is the brand name of the air suspension blower?**

A1: The brand name of the air suspension blower is Aipu.

**Q2: Where is the air suspension blower manufactured?**

A2: The air suspension blower is manufactured in China.

**Q3: What certifications does the air suspension blower have?**

A3: The air suspension blower has CE, CCC, SABS, TUV, and RoHS certifications.

**Q4: What is the price of the air suspension blower?**

A4: The price of the air suspension blower is negotiable.

**Q5: What are the packaging details and delivery time for the air suspension blower?**

A5: The air suspension blower comes in a standard export package and has a delivery time of 6-8 workdays.
