Product Description

Product Description:

Manufactured in China, the Aerator Blower is a high-quality product that is designed to meet the needs of customers around the world. Whether you are a professional event planner or a parent looking to provide endless hours of fun for your children, this blower is the perfect solution.

The Aerator Blower is an electric blower that is powered by electricity. It plugs into a standard electrical outlet and is easy to use. Simply turn it on, and it will quickly inflate your bouncy castle or other inflatable structure. With a maximum pressure of 10 PSI, this blower is powerful enough to inflate even the largest bouncy castles quickly and efficiently.

Weighing in at just 20 lbs, the Aerator Blower is lightweight and easy to transport. It comes equipped with a handle for easy carrying, making it easy to take with you wherever you go. Whether you are setting up a bouncy castle in your backyard or at a large event, this blower is the perfect tool for the job.

The Aerator Blower is designed with safety in mind. It features a durable construction that is built to withstand the rigors of regular use. It also features a bulb air blower which allows for precise control over the amount of air being pumped into the bouncy castle or other inflatable structure. This ensures that the inflatable is inflated to the correct level, helping to prevent accidents and injuries.

In conclusion, the Aerator Blower is a must-have for anyone who owns a bouncy castle or other inflatable play equipment. With its powerful induction motor, electric power source, and lightweight design, it is the perfect tool for inflating and deflating bouncy castles quickly and efficiently. Manufactured in China, this blower is a high-quality product that is designed to meet the needs of customers around the world. So, if you want to ensure that your bouncy castle is always ready for action, the Aerator Blower is the perfect solution.

Applications:

The Jiang Aerator Blower is a versatile and high-quality blower that is ideal for a variety of applications. This blower is perfect for use in a wide range of settings, including outdoor events, bouncy castle air blowers, air cushion machine blowers, and air cushion machine blowers.

With a maximum pressure of 10 PSI, this blower is capable of providing powerful and consistent airflow to a range of inflatable structures. Whether you are inflating a bouncy castle or an air cushion machine, this blower is up to the task.

The Jiang Aerator Blower is made in China and comes with CE and UL certification, ensuring that it meets high standards of quality and safety. With a minimum order quantity of just 1kg and negotiable pricing, this blower is an affordable and accessible option for a variety of applications.

The blower is packaged in a container and has dimensions of 15 x 10 x 12 inches, making it easy to transport and store. With a weight of 20 lbs, it is also lightweight enough to be moved around as needed.

Whether you need a blower for a one-time event or for ongoing use, the Jiang Aerator Blower is a reliable and efficient choice. With a delivery time of just 10 days and payment terms of TT, this blower is easy to obtain and use.

The Jiang Aerator Blower has a supply ability of 10t/y, making it a great choice for businesses and individuals who need a reliable and high-quality blower for a range of applications.

Overall, the Jiang Aerator Blower is a versatile, reliable, and affordable option for anyone in need of a powerful blower for inflatables. Whether you are using it for a bouncy castle, air cushion machine, or another application, this blower is up to the task.
